

Healing Our Church

A pastoral response to the sexual-abuse crisis and coverup by church leaders

RENEW International has created *Healing Our Church*, a small-group resource which faces the issue head-on and helps the faithful begin the healing process. This program will deal with the complex emotions this scandal has caused and start on the path to healing and renewed discipleship.

We are seeking 3-6 people to provide leadership to implement this process for St. Teresa of Avila parish. Training will be provided by the program later this month.
